

EXPERT SOLUTIONS FOR THE MOST DEMANDING APPLICATIONS

Hilti Cable Transit System

FOR A
SAFER
SEAL.

The versatile Hilti Cable
Transit System.
Fire-resistant, watertight
and gastight.

YOU CAN DEPEND ON US.

Hilti has been a leading manufacturer and supplier of high-quality, easy-to-use firestop systems for over 20 years. We support you at the preparatory and execution stages of your firestop projects by offering quick planning assistance, comprehensive technical literature and application-specific training. With Hilti you can depend on high-grade products and services that secure your competitive edge by offering many decisive advantages and thus tremendous added value.

Applications – Sealing and fire stop solutions e.g. in

- Building and construction (waste water plants, office buildings, high-rise buildings, power substations, transformer stations, airport, bridges, tunnels, hospitals, clean rooms, control rooms, data center, cabinets, etc.)
- Industrial applications for downstream (oil and gas) and petrochemical plants
- Telecom applications (outdoor centers, switch stations, communication centers, etc.) and transmission towers
- Wind and offshore applications

Fire resistance

- Fire-resistant and halogen-free elastomeric material
- Tested for reaction to fire, classification according to EN 13501-1 (class E)
- Resistance to fire according EN 1366-3 for cables, metal pipes and mixed penetrations: fire ratings up to EI 180
- Resistance to fire according ANSI / UL 1479 (ASTM E814): fire ratings up to 4 hours, UL listings and FM approved
- A-60 approvals according IMO 754(18) class A for marine or offshore applications in steel / aluminum bulkheads and decks available from MED, ABS, DNV, Germanischer Lloyd, Lloyd register, US Coast Guard, Transport Canada and CCS
- H-120 approvals according IMO 754(18) class A for marine or offshore applications in steel bulkheads and decks available from ABS and Lloyd register
- Jet fire tested up to J-60 fire rating. Approval from ABS

Additional attributes

- Gastight (up to 7 bars) and watertight (up to 11 bars) thanks to 7 sealing lips, water and dust tightness (IP 65)
- Sealing solution certified according to ATEX for use in areas with a potentially explosive atmosphere.
- Tested according to NBS smoke chamber test standard (smoke density and toxicity)
- Age tested
- Blast loaded tests with peak overpressure of 42 bar and pressure impulse of 83 bar ms
- Electromagnetic compatibility against electric fields and electric impulses: EMC modules tested according to MIL-STD 285
- Complies with the requirements for indoor use (requirements of DIBt in comb. with the NIK values from AgBB environment)
- Fungicide tests acc. ASTM G 21-96 (2002) resp. EN ISO 846 guideline
- Seismic tested

Features and benefits

- Low inventory requirements - only 7 different modules are needed to cover all cable diameters from 3 to 99 mm
- Versatile adapter modules for quick, easy accommodation of each cable diameter
- Big savings thanks to module interlinking, especially where cables run vertically through deck penetrations.
- Easy to install using anchor plates and the CFS-T SQU module squeezer
- Wedge seals with only one bolt for quick installation
- Easy inspection - visual inspection of correct installation within seconds due to color-coded adapter system
- Temperature resistance: -40 to +50°C at constant load, short-term load up to 120°C

**Hilti PROFIS
Cable Transit
planning
software.**

The Hilti PROFIS Cable Transit planning software helps you achieve high safety standards right from the very earliest stages of your project. It helps you calculate and select frames and modules of the right dimensions for your projects, prepares accurate bills of materials and lets you define each individual cable according to the needs of the installation. This easy-to-use program helps you save time and costs right from the word go.

- Designing and calculating the frames and modules required according to the size of the opening and applicable materials (CFS-T SB, CFS-T SBO, CFS-T SS, CFS-T SSF, CFS-T RR).
Precise planning of all cable transits according to the number, size and type of cables.
 - Adding of cables by xls import is possible.
 - Preparation of parts lists and drawings to be used as a basis for ordering the items required for a project.
-
- Presentation of the frame packing and cable layout plans for each cable transit, plus documentation containing all project-relevant information.
 - Export into AutoCad files is possible.
 - The Project Manager incorporated in the Hilti planning software takes the user step-by-step through the project, designing each cable transit on the basis of the specific cable configuration.

SAFETY ON ALL SIDES.

CFS-T SB and SBO transit frames

CFS-T SB

CFS-T SBO

Hilti CFS-T SB and CFS-T SBO transit frames for wall and floor penetrations in concrete, masonry and lightweight walls.

Technical information

- Made from 5 mm thick angle steel. Partitioning bars between frame windows made from 8 mm flat steel.
- CFS-T SBO transit frames (with removable top and bolts) for existing cable installations.

Material quality

- CFS-T SB: Steel S235 JR, hot-dip galvanized
- CFS-T SBO: Steel S235 JR, electrolytically galvanized

Dimensions of CFS-T SB and CFS-T SBO transit frames (single-row)

CFS-T SB/ CFS-T SBO	2 x 1									
H1 x B1 (in mm)	101x120

CFS-T SB/container transit frames for steel panels

Technical information

- Made from 8 mm thick angle steel. Partitioning bars in multiple frames made from 5 mm flat steel.
- The design consists of a basic CFS-T SB frame with flattened welded seams for an even seat and the counter frame for covering the wall aperture.
- Corresponding holes allow mounting with through bolts.

- Optional: CFS-T SST 40x8x5000 self-adhesive sealing strip gasket (black foam rubber) on basic frame.
- CFS-T SB/cont. transit frames can be installed in panels (container walls) with a wall thickness of 50 to 90 mm.

Material quality

- Steel S235 JR, hot-dip galvanized.

Dimensions of CFS-T SB/cont. transit frame*

CFS-T SB/cont.	4 x 1	Recommended opening size
H1 x B1 (in mm) / H2 x B2 (in mm)	160x120 / 240x240	195x160
	6 x 1	RSO*
H1 x B1 (in mm) / H2 x B2 (in mm)	218x120 / 298x240	253x160
	8 x 1	RSO*
H1 x B1 (in mm) / H2 x B2 (in mm)	277x120 / 375x240	312x160

CFS-T SSGK transit frames for plasterboard panels

Technical information

- Made from 10 mm angle steel with 3 mm sheet steel stacking frame. Partitioning strips on multiple frames made from 10 mm flat steel.
- The design consists of a basic CFS-T SS frame, the stacking frame and the counter frame for covering the wall aperture.

- Corresponding holes allow mounting with through bolts.
- CFS-T SSGK frames are designed for use in lightweight walls with a wall thickness of 125 mm

Material quality

- Steel S235 JR, hot-dip galvanized.

Dimensions of CFS-T SSGK transit frame*

CFS-T SSGK	4 x 1	RSO**	4 x 2	RSO**	4 x 3	RSO**	4 x 4	RSO**	4 x 5	RSO**

H2 x B2 (in mm)	420x260		420x390		420x520		3420x650		420x780	

* Tolerances: CFS-T SB/cont. and CFS-T SSGK are manufactured with a tolerance of -0.0/+0.4 mm for each frame window. Accordingly, with multiple frame combinations, tolerances may be up to 3 mm (dimension B1/B2). **RSO= Recommended opening size

CFS-T SS transit frames

CFS-T SS

Technical information

- Made from 10 mm flat bar
- CFS-T transit frames made from Aluminium, material grade Al.Mg. Si.05 available on request
- CFS-T SS transit frames with higher number of frame windows or double-row CFS-T SS transit frames available on request.

Material quality

- Standard, steel St.37, rust preventive primer coated
- Stainless steel, material grade 1.4571/A4 (DIN 17456 or AISI 316Ti).

Tolerances: CFS-T SS frames are manufactured with a tolerance of $-0.0/+0.4$ mm for each frame window. Accordingly, with multiple frame combinations, total tolerance may be up to 4 mm (dimensions B1/B2).

Technical information

- Made from 10 mm flat bar

Material quality

- Standard, steel S235 JR, rust preventive primer coated
- Stainless steel, material grade 1.4571/A4 (DIN 17456 or AISI 316Ti).

**FOR EASY
INSTALLATION.**

**Hilti Cable
Transit System**

QUICK, EASY AND VERSATILE.

The Hilti Cable Transit System.

One system – a host of advantages

Designed as a modular system, the Hilti Cable Transit System solves three problems simultaneously. These versatile sets consisting of the fire-resistant, gas- and watertight basic module, module adapter and core module not only seal around cables quickly and reliably, they're also re-usable. That saves time, cuts costs and helps keep your inventory to a minimum.

Basic module

The basic module for sealing around cables to a tolerance of 2-3 mm (without use of an adapter). The modules are supplied in a joined-together state but can be easily separated for individual use. Available in 7 different module sizes (15, 20, 30, 40, 60, 90 and 120mm).

Adapter module

Adapter modules in black or gray for sealing around cables to a tolerance of 3-5 mm.

Core module

The core module is used as a filler where space is reserved for future cable installations.

Filler modules

Space reserved for future cable installations can be filled with the filler modules in the sizes 5, 10, 15, 20 and 30mm. The filler modules are supplied in a joined-together state (filler module blocks) but can be easily separated for individual use.

DIMENSIONS OF THE BASIC MODULES.

Module	Rohrhersteller		Diameter range	Diameter range per module / adapter
	Cable modules			
	Dimension A (in mm)	Dimension B (in mm)		
CFS-T 15/0+3-9	15	15	3 - 9 mm	Black adapter = 3 - 5 mm Grey adapter = 6 - 8 mm Basic module = 9 mm
CFS-T 20/0+5-12	20	20	5 - 12 mm	Black adapter = 5 - 7 mm Grey adapter = 8 - 10 mm Basic module = 11 - 12 mm

CLEVER ACCESSORIES.

Wedge compression kit

The CFS-T WD 120 wedge compression kit is used to allow quick and easy compression of modules and filler blocks for an effective seal. The sealing wedge can be placed anywhere within the frame and there is only one central bolt to be tightened.

Available with bolt and counter-plate made from galvanized steel or A4 stainless steel material 1.4571 (AISI 316Ti).

The CFS-T WD 120 wedge compression kit is supplied complete with 4 anchor plates, one fixing anchor plate and lubricant (30 g).

Anchor plate

The anchor plate facilitates assembly of the cable modules and filler modules, secures these within the frame and increases tightness of the seal against static and dynamic pressure. The anchor plate is available in galvanized steel, stainless steel material 1.4301 (AISI 304) or in aluminium.

Use one anchor plate between each row of modules and also to secure the CFS-T WD 120 wedge.

Fixing anchor plate

The fixing anchor plate is used in conjunction with the module squeezer. After precompression of the modules, the fixing anchor plate can be secured by tightening the screws against the frame. It thus holds the rows of modules in their precompressed position. This facilitates insertion of the last module and the wedge seal. Use of the fixing anchor plate is recommended in situations where a large number of cables pass through the transit frame.

Module squeezer

The module squeezer uses the screw jack principle to achieve easy precompression of the modules before insertion of the row, or last two rows, and thus facilitates further assembly of the cable modules and insertion of the wedge seal.

Wedge puller

The wedge puller is used as a disassembly tool to aid removal of the CFS-T WD 120 wedge seal without damage to allow subsequent retrofitting of additional cables.

INSTALLING THE CFS-T SB TRANSIT FRAME IN CONCRETE

INSTALLING THE CFS-T SBO TRANSIT FRAME IN CONCRETE

INSTALLING THE SYSTEM – THIS IS HOW IT’S DONE IN A FEW EASY STEPS.

1
Wrap the Hilti size gauge around the cable in order to determine the module and adapter size required.

2
If necessary, remove the black adapter and replace it with one of the correct size or, depending on the size required, use the basic module without the adapter.

3
Carefully apply Hilti CFS-T LUB lubricant to all system parts.

4
Place the open module in the frame beneath the cables.

5
Position the cables in the module.

6
Close the module by fitting the appropriate top half.

7
Place the anchor plate on top of the module row and then continue with the next row as described above, using modules of the appropriate sizes.

8
Place the fixing anchor plate on top of the second-last module row.

9
Place the pressure plate on top of the last anchor plate in the frame.

Position the module squeezer centrally in the space above the last module and apply pressure by turning the spindle with a suitable wrench.

Tighten the screws on the fixing anchor plate. Remove the module squeezer. The modules remain compressed, making it easier to insert the wedge seal.

The last anchor plate and module row can then be inserted.

Apply lubricant to all surfaces of the CFS-T WD 120 wedge seal.

Push the wedge seal into the remaining space in the frame.

Release the screws on the fixing anchor plate before tightening the bolt in the wedge seal.

Secure the whole assembly by tightening the bolt in the wedge seal with a suitable wrench.

Make sure that all modules have been correctly installed in accordance with the points in the checklist.

Technical information

- Is the wedge seal completely, or almost completely, within the frame?
- Are all modules securely seated behind the raised edge of the anchor plate where they cannot fall out?
- Has the right number of modules been installed? Check the original installation plan.
- Have modules of the correct size been installed? Check the original installation plan.
- Have module adapters and core modules of the correct color been installed (gray, red, black or none)?
- Were all modules, adapters and core modules well lubricated?

EXCHANGING THE MODULES QUICKLY AND EASILY.

1 Use a wrench to unscrew the bolt in the wedge seal.

2 Remove the bolt from the wedge seal.

3 Insert the pulling bolt (attached to the wedge puller).

4 Bring the CFS-T WD 120 wedge puller into position so that it grips the head of the pulling bolt.

5 Pull the wedge seal out of the frame by turning the nut on the puller with an M24 ring wrench.

6 Remove the applicable modules from the frame and then follow the installation instructions when refitting the required items.

Not to scale

INFORMATION

Frame packing plan

The drawing shows the space available in one frame window of the types SB-2/4/6/8 and for the plug seals of the types RR-50/70/100/125/150/200 in 10 mm increments and thus serves as a planning aid for positioning the modules.

Module capacity / space requirements:

CFS-T SS/SB/SBO-2:	120x60mm
CFS-T SS/SB/SBO-4:	120x120mm
CFS-T SS/SB/SBO-6:	120x180mm
CFS-T SS/SB/SBO-8:	120x240mm

CFS-T RR 50:	30x30mm
CFS-T RR 70:	40x40mm
CFS-T RR 100:	60x60mm
CFS-T RR 125:	80x80mm
CFS-T RR 150:	90x90mm
CFS-T RR 200:	120x120mm

CFS-T RR - THE SOLUTION FOR ROUND CABLE TRANSITS

CFS-T RR plug seal

The CFS-T RR plug seal is an important component of the Hilti cable transit system for sealing around cables in circular openings. It forms a fire-resistant, watertight and gastight seal.

Technical information

The CFS-T RR plug seal consists of an elastic, halogen-free and highly flame-resistant synthetic rubber (HFE) insert with tensioning bolts and plates made from galvanized steel or A4 stainless steel material 1.4571 (AISI316Ti).

Dimensions of the CFS-T RR plug seal									
Type	Space avail.		Hole dia.	Dimensions in mm				Module length	Tensioning bolts
	A	cm ²	ø mm	D 1	D 2	L 1	L 2	L 3	DIN603(DIN84)
CFS-T RR 50	30	9	50 - 51	50	57	71	85	60	4 pcs. M4x70
CFS-T RR 70	40	16	70 - 72	70	76	71	85	60	4 pcs. M5x70

INSTALLING THE SYSTEM - THIS IS HOW IT'S DONE IN A FEW EASY STEPS.

1
Check the size of the opening to ensure that the plug seal will fit snugly.

2
Lubricate and push the plug seal into the opening.

3
Install the cables in accordance with the frame packing plan.

4
Use the Hilti size gauge to determine the modules required.

5
Lubricate all system parts carefully with Hilti lubricant.

6
Insert the modules, row by row, and lay the cable on top. Rotate the modules through 90° if necessary.

7
After inserting the last module (can be a blank module), use a ring wrench to tighten the bolts on the frame.

8
Check that the modules are seated and installed correctly.

INSTALLING THE SYSTEM WHERE CABLES ARE ALREADY IN PLACE.

1
Check the size of the opening to ensure that the plug seal will fit snugly.

2
In situations where cables are already in place, use a sharp knife to cut right through the plug seal at a corner of the frame.

3
Lubricate and slip the opened frame over the cables and then push the plug seal into the opening (tap in with a hammer if necessary).

4
Use the Hilti size gauge to determine the modules required.

5
Lubricate all system parts carefully with Hilti lubricant.

6
Insert the modules, row by row, and lay the cable on top. Rotate the modules through 90° if necessary.

7
After inserting the last module (can be a blank module), use a ring wrench to tighten the bolts on the frame.

8
Check that the modules are seated and installed correctly.

CFS-T RRS – THE SOLUTION FOR SINGLE CABLES AND PIPES

CFS-T RRS – plug seal

Sealing individual cables and pipes against fire, gas and to ensure watertightness in cored holes or sleeved pipes.

Technical information

The CFS-T RRS plug seal consists of an elastic, halogen-free and highly flame-resistant synthetic rubber (HFE) insert with tensioning bolts and plates made from galvanized steel or A4 stainless steel material 1.4571 (AISI316Ti).

CFS-T EMC SOLUTIONS

CFS-T cable modules and filler modules

EMC modules with contact tips and tapes (made from electrolytic copper) form a conductive connection between cable shield and frame.

Applications

- EMC sealing solution (electromagnetic compatibility) for protection against electromagnetic influences.
- Highly sensitive electronic equipment, like signal and control systems, communication techniques and instruments.
- Instruments to be tightly shielded from electromagnetic fields caused by sudden electromagnetic pulses (EMP), lightning (LEMP), nuclear explosions (NEMP), control operations in overhead lines and transformer stations or electromagnetic fields from electronic instruments or other equipment not sufficiently shielded.
- Special areas of navy ships, offshore platforms (upstream), offshore transformer stations (wind energy).

Material quality

- EMC wedge kits are available in galvanized steel or stainless steel

CFS-T EMC wedge kits

CFS-T EMC wedge seals are available in galvanized steel or stainless steel. Each wedge kit contains one CFS-T EMC wedge seal, 4 anchor plates and one CFS-T EMC contact paste (to protect copper contact strips on modules and compression wedge from corrosion). Anchor plates are available in galvanized steel, stainless steel or aluminium.

CFS-T RRS-43/0+5-23 S/S plug seal incl. adapter and core modules	1	2042730
CFS-T RRS-50/0+13-33 S/S plug seal incl. adapter and core modules	1	2042732
CFS-T RRS-70/0+23-51 S/S plug seal incl. adapter and core modules	1	2042734
CFS-T RRS-100/0+34-71 S/S plug seal incl. adapter and core modules	1	2042736
CFS-T RRS-100/0+23-78 S/S plug seal incl. adapter and core modules	1	2042738

CFS-T EMC SYSTEM

Cable modules

Ordering designation	Package contents	Item no.
CFS-T EMC 20/0+5-12 cable modules incl. adapter and core modules	36	2014868
CFS-T EMC 30/0+13-23 cable modules incl. adapter and core modules	16	2014869
CFS-T EMC 40/0+23-33 cable modules incl. adapter and core modules	9	2014870
CFS-T EMC 60/0+34-51 cable modules incl. adapter and core modules	4	2014871
CFS-T EMC 90/0+52-78 cable modules incl. adapter and core modules	1	2014872
CFS-T EMC 120/0+79-99 cable modules incl. adapter and core modules	1	2014873

Filler modules

Ordering designation	Package contents	Item no.
CFS-T FB EMC 120x5/0 filler module	36	2014874
CFS-T FB EMC 120x10/0 filler module	18	2014875
CFS-T FB EMC 15/0 filler module	96	2014876
CFS-T FB EMC 20/0 filler module	54	2014877
CFS-T FB EMC 30/0 filler module	24	2014878

Wedge seals and anchor plates

Ordering designation	Package contents	Item no.
CFS-T WD 120 EMC GS wedge compression kit comprising 1 wedge seal (galvanized), 4 anchor plates (galvanized), 1 fixing anchor plate (galvanized), EMC contact paste (30 g)	1	2020707
CFS-T WD 120 EMC S/S wedge compression kit comprising 1 wedge seal (stainless steel material 1.4571 / V4A (AISI 316Ti)), 4 anchor plates (stainless steel material 1.4301 (AISI 304)), 1 fixing anchor plate (stainless steel material 1.4301 (AISI 304)), EMC contact paste (30 g)	1	2020708
CFS-T WD 120 EMC AL wedge compression kit comprising 1 wedge seal (stainless steel material 1.4571 / V4A (AISI 316Ti)), 5 anchor plates (aluminium), EMC contact paste (30 g)	1	2020708
CFS-T AP 120 GS anchor plate set comprising 9 anchor plates (galvanized), 1 fixing anchor plate (galvanized)	1	2014882
CFS-T AP 120 S/S anchor plate set comprising 9 anchor plates (stainless steel material 1.4301 (AISI 304)), 1 fixing anchor plate (stainless steel material 1.4301 (AISI 304))	1	2014883
CFS-T AP 120 AL anchor plate set comprising 10 anchor plates (aluminium)	1	2016767
CFS-T FAP 120 S/S fixing anchor plate set comprising 10 anchor plates (stainless steel material 1.4301 (AISI 304))	1	2014923

Plug seals

Ordering designation	Package contents	Item no.
CFS-T RR-50 EMC GS (galvanized steel)	1	2014904
CFS-T RR-50 EMC S/S (stainless steel material 1.4571 / V4A (AISI 316Ti))	1	2014905
CFS-T RR-70 EMC GS (galvanized steel)	1	2014906
CFS-T RR-70 EMC S/S (stainless steel material 1.4571 / V4A (AISI 316Ti))	1	2014907
CFS-T RR-100 EMC GS (galvanized steel)	1	2014910
CFS-T RR-100 EMC S/S (stainless steel material 1.4571 / V4A (AISI 316Ti))	1	2014911
CFS-T RR-125 EMC GS (galvanized steel)	1	2014914
CFS-T RR-125 EMC S/S (stainless steel material 1.4571 / V4A (AISI 316Ti))	1	2014915
CFS-T RR-150 EMC GS (galvanized steel)	1	2014916
CFS-T RR-150 EMC S/S (stainless steel material 1.4571 / V4A (AISI 316Ti))	1	2014917
CFS-T RR-200 EMC GS (galvanized steel)	1	2014920
CFS-T RR-200 EMC S/S (stainless steel material 1.4571 / V4A (AISI 316Ti))	1	2014921

CFS-T EX SYSTEM

Cable modules

Ordering designation	Package contents	Item no.
CFS-T EX 15/0+3-9 cable modules incl. adapter and core modules	64	2042700
CFS-T EX 20/0+5-12 cable modules incl. adapter and core modules	36	2042701
CFS-T EX 30/0+13-23 cable modules incl. adapter and core modules	16	2042702
CFS-T EX 40/0+23-33 cable modules incl. adapter and core modules	9	2042703
CFS-T EX 60/0+34-51 cable modules incl. adapter and core modules	4	2042704
CFS-T EX 90/0+52-78 cable modules incl. adapter and core modules	1	2042705
CFS-T EX 120/0+79-99 cable modules incl. adapter and core modules	1	2042706

Filler modules

Ordering designation	Package contents	Item no.
CFS-T FB EX 120x5/0 filler module	36	2042707
CFS-T FB EX 120x10/0 filler module	18	2042708
CFS-T FB EX 15/0 filler module	96	2042709
CFS-T FB EX 20/0 filler module	54	2042710
CFS-T FB EX 30/0 filler module	24	2042711

Wedge seals and anchor plates

Ordering designation	Package contents	Item no.
CFS-T WD 120 EX GS wedge compression kit comprising 1 wedge seal (galvanized), 4 anchor plates (galvanized), 1 fixing anchor plate (galvanized), CFS-T lubricant (30 g)	1	2042713
CFS-T WD 120 EX S/S wedge compression kit comprising 1 wedge seal (stainless steel material 1.4571 / V4A (AISI 316Ti)), 4 anchor plates (stainless steel material 1.4301(AISI 304)), 1 fixing anchor plate (stainless steel material 1.4301 (AISI 304)), CFS-T lubricant (30 g)	1	2042714
CFS-T AP 120 EX GS anchor plate set comprising 9 anchor plates (galvanized), 1 fixing anchor plate (galvanized)	1	2042715
CFS-T AP 120 EX S/S anchor plate set comprising 9 anchor plates (stainless steel material 1.4301 (AISI 304)), 1 fixing anchor plate (stainless steel material 1.4301 (AISI 304))	1	2042716
CFS-T FAP 120 EX S/S fixing anchor plate set comprising 10 fixing anchor plates (stainless steel material 1.4301 (AISI 304))	1	2042717

Accessories

Ordering designation	Package contents	Item no.
CFS-T EX FS identification plate	1	2029923

Accessories

Ordering designation	Package contents	Item no.
CFS-T SQU module squeezer	1	2014885
CFS-T PUL wedge puller	1	2014884
CFS-T LUB 500 g lubricant	1	2042741
CFS-T SST 60x4x720 HFE sealing strip (halogen-free elastomer)	5	2042740

CFS-T STRF SYSTEM

CFS-T S cable modules and CFS-T FB S filler modules

Ordering designation	Package contents	Item no.
CFS-T S 15/0+3-9 cable module incl. adapter and core modules	128	2042718
CFS-T S 20/0+5-12 cable module incl. adapter and core modules	72	2042719
CFS-T S 30/0+13-23 cable module incl. adapter and core modules	32	2042720
CFS-T S 40/0+23-33 cable module incl. adapter and core modules	18	2042721
CFS-T FB S 24x5/0 filler module	72	2042722
CFS-T FB S 12x10/0 filler module	36	2042723

Wedge seal

Ordering designation	Package contents	Item no.
CFS-T WD 60 wedge seal	1	2042724

Transit frames CFS-T STRF

Ordering designation	Package contents	Item no.
CFS-T STRF-150 GF transit frame (glass fiber)	1	2042725
CFS-T STRF-210 GF transit frame (glass fiber)	1	2042726
CFS-T STRF-150 GS transit frame (galvanized steel)	1	2042727
CFS-T STRF-210 GS transit frame (galvanized steel)	1	2042728

CFS-T SB TRANSIT FRAMES

CFS-T SB transit frames (single-row)		
Ordering designation	Package contents	Item no.
CFS-T SB-2x1 GS transit frame (galvanized steel)	1	2060542
CFS-T SB-4x1 GS transit frame (galvanized steel)	1	2060543
CFS-T SB-4x2 GS transit frame (galvanized steel)	1	2060544
CFS-T SB-4x3 GS transit frame (galvanized steel)	1	2060545
CFS-T SB-4x4 GS transit frame (galvanized steel)	1	2060546
CFS-T SB-4x5 GS transit frame (galvanized steel)	1	2060547
CFS-T SB-4x6 GS transit frame (galvanized steel)	1	2060548
CFS-T SB-4x7 GS transit frame (galvanized steel)	1	2060549
CFS-T SB-4x8 GS transit frame (galvanized steel)	1	2060570
CFS-T SB-4x9 GS transit frame (galvanized steel)	1	2060571
CFS-T SB-4x10 GS transit frame (galvanized steel)	1	2060572
CFS-T SB-6x1 GS transit frame (galvanized steel)	1	2060593
CFS-T SB-6x2 GS transit frame (galvanized steel)	1	2060594
CFS-T SB-6x3 GS transit frame (galvanized steel)	1	2060595
CFS-T SB-6x4 GS transit frame (galvanized steel)	1	2060596
CFS-T SB-6x5 GS transit frame (galvanized steel)	1	2060597
CFS-T SB-6x6 GS transit frame (galvanized steel)	1	2060598
CFS-T SB-6x7 GS transit frame (galvanized steel)	1	2060599
CFS-T SB-6x8 GS transit frame (galvanized steel)	1	2060600
CFS-T SB-6x9 GS transit frame (galvanized steel)	1	2060601
CFS-T SB-6x10 GS transit frame (galvanized steel)	1	2060602
CFS-T SB-8x1 GS transit frame (galvanized steel)	1	2060623
CFS-T SB-8x2 GS transit frame (galvanized steel)	1	2060624
CFS-T SB-8x3 GS transit frame (galvanized steel)	1	2060625
CFS-T SB-8x4 GS transit frame (galvanized steel)	1	2060626
CFS-T SB-8x5 GS transit frame (galvanized steel)	1	2060627
CFS-T SB-8x6 GS transit frame (galvanized steel)	1	2060628
CFS-T SB-8x7 GS transit frame (galvanized steel)	1	2060629
CFS-T SB-8x8 GS transit frame (galvanized steel)	1	2060630
CFS-T SB-8x9 GS transit frame (galvanized steel)	1	2060631
CFS-T SB-8x10 GS transit frame (galvanized steel)	1	2060632

CFS-T SB transit frames (double-row)

Ordering designation	Package contents	Item no.
CFS-T SB-4+4x1 GS transit frame (galvanized steel)	1	2060573
CFS-T SB-4+4x2 GS transit frame (galvanized steel)	1	2060574
CFS-T SB-4+4x3 GS transit frame (galvanized steel)	1	2060575
CFS-T SB-4+4x4 GS transit frame (galvanized steel)	1	2060576
CFS-T SB-4+4x5 GS transit frame (galvanized steel)	1	2060577
CFS-T SB-4+4x6 GS transit frame (galvanized steel)	1	2060578
CFS-T SB-4+4x7 GS transit frame (galvanized steel)	1	2060579
CFS-T SB-4+4x8 GS transit frame (galvanized steel)	1	2060580
CFS-T SB-4+4x9 GS transit frame (galvanized steel)	1	2060581
CFS-T SB-4+4x10 GS transit frame (galvanized steel)	1	2060582
CFS-T SB-6+6x1 GS transit frame (galvanized steel)	1	2060603
CFS-T SB-6+6x2 GS transit frame (galvanized steel)	1	2060604
CFS-T SB-6+6x3 GS transit frame (galvanized steel)	1	2060605
CFS-T SB-6+6x4 GS transit frame (galvanized steel)	1	2060606
CFS-T SB-6+6x5 GS transit frame (galvanized steel)	1	2060607
CFS-T SB-6+6x6 GS transit frame (galvanized steel)	1	2060608
CFS-T SB-6+6x7 GS transit frame (galvanized steel)	1	2060609
CFS-T SB-6+6x8 GS transit frame (galvanized steel)	1	2060610
CFS-T SB-6+6x9 GS transit frame (galvanized steel)	1	2060611
CFS-T SB-6+6x10 GS transit frame (galvanized steel)	1	2060612
CFS-T SB-8+8x1 GS transit frame (galvanized steel)	1	2060633
CFS-T SB-8+8x2 GS transit frame (galvanized steel)	1	2060634
CFS-T SB-8+8x3 GS transit frame (galvanized steel)	1	2060635
CFS-T SB-8+8x4 GS transit frame (galvanized steel)	1	2060636
CFS-T SB-8+8x5 GS transit frame (galvanized steel)	1	2060637
CFS-T SB-8+8x6 GS transit frame (galvanized steel)	1	2060638
CFS-T SB-8+8x7 GS transit frame (galvanized steel)	1	2060639
CFS-T SB-8+8x8 GS transit frame (galvanized steel)	1	2060640
CFS-T SB-8+8x9 GS transit frame (galvanized steel)	1	2060641
CFS-T SB-8+8x10 GS transit frame (galvanized steel)	1	2060642

CFS-T SB transit frames (triple-row)		
Ordering designation	Package contents	Item no.
CFS-T SB-4+4+4x1 GS transit frame (galvanized steel)	1	2060583
CFS-T SB-4+4+4x2 GS transit frame (galvanized steel)	1	2060584
CFS-T SB-4+4+4x3 GS transit frame (galvanized steel)	1	2060585
CFS-T SB-4+4+4x4 GS transit frame (galvanized steel)	1	2060586
CFS-T SB-4+4+4x5 GS transit frame (galvanized steel)	1	2060587
CFS-T SB-4+4+4x6 GS transit frame (galvanized steel)	1	2060588
CFS-T SB-4+4+4x7 GS transit frame (galvanized steel)	1	2060589
CFS-T SB-4+4+4x8 GS transit frame (galvanized steel)	1	2060590
CFS-T SB-4+4+4x9 GS transit frame (galvanized steel)	1	2060591
CFS-T SB-4+4+4x10 GS transit frame (galvanized steel)	1	2060592
CFS-T SB-6+6+6x1 GS transit frame (galvanized steel)	1	2060613
CFS-T SB-6+6+6x2 GS transit frame (galvanized steel)	1	2060614
CFS-T SB-6+6+6x3 GS transit frame (galvanized steel)	1	2060615
CFS-T SB-6+6+6x4 GS transit frame (galvanized steel)	1	2060616
CFS-T SB-6+6+6x5 GS transit frame (galvanized steel)	1	2060617
CFS-T SB-6+6+6x6 GS transit frame (galvanized steel)	1	2060618
CFS-T SB-6+6+6x7 GS transit frame (galvanized steel)	1	2060619
CFS-T SB-6+6+6x8 GS transit frame (galvanized steel)	1	2060620
CFS-T SB-6+6+6x9 GS transit frame (galvanized steel)	1	2060621
CFS-T SB-6+6+6x10 GS transit frame (galvanized steel)	1	2060622
CFS-T SB-8+8+8x1 GS transit frame (galvanized steel)	1	2060643
CFS-T SB-8+8+8x2 GS transit frame (galvanized steel)	1	2060644
CFS-T SB-8+8+8x3 GS transit frame (galvanized steel)	1	2060645
CFS-T SB-8+8+8x4 GS transit frame (galvanized steel)	1	2060646
CFS-T SB-8+8+8x5 GS transit frame (galvanized steel)	1	2059988
CFS-T SB-8+8+8x6 GS transit frame (galvanized steel)	1	2059989
CFS-T SB-8+8+8x7 GS transit frame (galvanized steel)	1	2060460
CFS-T SB-8+8+8x8 GS transit frame (galvanized steel)	1	2060461
CFS-T SB-8+8+8x9 GS transit frame (galvanized steel)	1	2060462
CFS-T SB-8+8+8x10 GS transit frame (galvanized steel)	1	2060463

Accessories for CFS-T SB transit frames		
Ordering designation	Package contents	Item no.
CFS-T CM-2 casting mould	1	2060538
CFS-T CM-4 casting mould	1	2060539
CFS-T CM-6 casting mould	1	2060540
CFS-T CM-8 casting mould	1	2060541

CFS-T SBO TRANSIT FRAMES

CFS-T SBO transit frames (single-row)		
Ordering designation	Package contents	Item no.
CFS-T SBO-2x1 GS transit frame (galvanized steel)	1	2060464
CFS-T SBO-4x1 GS transit frame (galvanized steel)	1	2060465
CFS-T SBO-4x2 GS transit frame (galvanized steel)	1	2060466
CFS-T SBO-4x3 GS transit frame (galvanized steel)	1	2060467
CFS-T SBO-4x4 GS transit frame (galvanized steel)	1	2060468
CFS-T SBO-4x5 GS transit frame (galvanized steel)	1	2060469
CFS-T SBO-4x6 GS transit frame (galvanized steel)	1	2060470
CFS-T SBO-4x7 GS transit frame (galvanized steel)	1	2060471
CFS-T SBO-4x8 GS transit frame (galvanized steel)	1	2060472
CFS-T SBO-4x9 GS transit frame (galvanized steel)	1	2060473
CFS-T SBO-4x10 GS transit frame (galvanized steel)	1	2060474
CFS-T SBO-6x1 GS transit frame (galvanized steel)	1	2060485
CFS-T SBO-6x2 GS transit frame (galvanized steel)	1	2060486
CFS-T SBO-6x3 GS transit frame (galvanized steel)	1	2060487
CFS-T SBO-6x4 GS transit frame (galvanized steel)	1	2060488
CFS-T SBO-6x5 GS transit frame (galvanized steel)	1	2060489
CFS-T SBO-6x6 GS transit frame (galvanized steel)	1	2060490
CFS-T SBO-6x7 GS transit frame (galvanized steel)	1	2060491

CFS-T SBO-8+8x9 GS transit frame (galvanized steel)	1	2060523
CFS-T SBO-8+8x10 GS transit frame (galvanized steel)	1	2060524

CFS-T SB/CONT. TRANSIT FRAMES

CFS-T SB/cont. transit frames		
Ordering designation	Package contents	Item no.
CFS-T SB/cont-4x1 GS transit frame (galvanized steel)	1	2060525
CFS-T SB/cont-6x1 GS transit frame (galvanized steel)	1	2060526
CFS-T SB/cont-8x1 GS transit frame (galvanized steel)	1	2060527

Accessories for CFS-T SB/Cont. transit frames		
Ordering designation	Package contents	Item no.
CFS-T SST 40x8x5000 sealing strip	1	2042739

CFS-T SSGK TRANSIT FRAMES

CFS-T SSGK transit frames		
Ordering designation	Package contents	Item no.
CFS-T SSGK-2x1 GS transit frame (galvanized steel)	1	2060528
CFS-T SSGK-4x1 GS transit frame (galvanized steel)	1	2060529
CFS-T SSGK-4x2 GS transit frame (galvanized steel)	1	2060530
CFS-T SSGK-4x3 GS transit frame (galvanized steel)	1	2060531
CFS-T SSGK-6x1 GS transit frame (galvanized steel)	1	2060532
CFS-T SSGK-6x2 GS transit frame (galvanized steel)	1	2060533
CFS-T SSGK-6x3 GS transit frame (galvanized steel)	1	2060534
CFS-T SSGK-8x1 GS transit frame (galvanized steel)	1	2060535
CFS-T SSGK-8x2 GS transit frame (galvanized steel)	1	2060536
CFS-T SSGK-8x3 GS transit frame (galvanized steel)	1	2060537

CFS-T SS TRANSIT FRAMES

CFS-T SS transit frames		
Ordering designation	Package contents	Item no.
CFS-T SS-2x1 MSP transit frame (steel, rust preventive coated)	1	2014745
CFS-T SS-2x1 S/S transit frame (stainless steel material 1.4571 / V4A (AISI 316 Ti))	1	2014746
CFS-T SS-2x2 MSP transit frame (steel, rust preventive coated)	1	2014748
CFS-T SS-2x2 S/S transit frame (stainless steel material 1.4571 / V4A (AISI 316 Ti))	1	2014749
CFS-T SS-2x3 MSP transit frame (steel, rust preventive coated)	1	2014931
CFS-T SS-2x3 S/S transit frame (stainless steel material 1.4571 / V4A (AISI 316 Ti))	1	2014932
CFS-T SS-2x4 MSP transit frame (steel, rust preventive coated)	1	2014934
CFS-T SS-2x4 S/S transit frame (stainless steel material 1.4571 / V4A (AISI 316 Ti))	1	2014935
CFS-T SS-2x5 MSP transit frame (steel, rust preventive coated)	1	2014937
CFS-T SS-2x5 S/S transit frame (stainless steel material 1.4571 / V4A (AISI 316 Ti))	1	2014938
CFS-T SS-4x1 MSP transit frame (steel, rust preventive coated)	1	2014940
CFS-T SS-4x1 S/S transit frame (stainless steel material 1.4571 / V4A (AISI 316 Ti))	1	2014941
CFS-T SS-4x2 MSP transit frame (steel, rust preventive coated)	1	2014943
CFS-T SS-4x2 S/S transit frame (stainless steel material 1.4571 / V4A (AISI 316 Ti))	1	2014944
CFS-T SS-4x3 MSP transit frame (steel, rust preventive coated)	1	2014946
CFS-T SS-4x3 S/S transit frame (stainless steel material 1.4571 / V4A (AISI 316 Ti))	1	2014947
CFS-T SS-4x4 MSP transit frame (steel, rust preventive coated)	1	2014949
CFS-T SS-4x4 S/S transit frame (stainless steel material 1.4571 / V4A (AISI 316 Ti))	1	2014950
CFS-T SS-4x5 MSP transit frame (steel, rust preventive coated)	1	2014952
CFS-T SS-4x5 S/S transit frame (stainless steel material 1.4571 / V4A (AISI 316 Ti))	1	2014953
CFS-T SS-6x1 MSP transit frame (steel, rust preventive coated)	1	2014955
CFS-T SS-6x1 S/S transit frame (stainless steel material 1.4571 / V4A (AISI 316 Ti))	1	2014956
CFS-T SS-6x2 MSP transit frame (steel, rust preventive coated)	1	2014958
CFS-T SS-6x2 S/S transit frame (stainless steel material 1.4571 / V4A (AISI 316 Ti))	1	2014959
CFS-T SS-6x3 MSP transit frame (steel, rust preventive coated)	1	2014961
CFS-T SS-6x3 S/S transit frame (stainless steel material 1.4571 / V4A (AISI 316 Ti))	1	2014962
CFS-T SS-6x4 MSP transit frame (steel, rust preventive coated)	1	2014964
CFS-T SS-6x4 S/S transit frame (stainless steel material 1.4571 / V4A (AISI 316 Ti))	1	2014965
CFS-T SS-6x5 MSP transit frame (steel, rust preventive coated)	1	2014967
CFS-T SS-6x5 S/S transit frame (stainless steel material 1.4571 / V4A (AISI 316 Ti))	1	2014968
CFS-T SS-8x1 MSP transit frame (steel, rust preventive coated)	1	2014970
CFS-T SS-8x1 S/S transit frame (stainless steel material 1.4571 / V4A (AISI 316 Ti))	1	2014971
CFS-T SS-8x2 MSP transit frame (steel, rust preventive coated)	1	2014973
CFS-T SS-8x2 S/S transit frame (stainless steel material 1.4571 / V4A (AISI 316 Ti))	1	2014974
CFS-T SS-8x3 MSP transit frame (steel, rust preventive coated)	1	2014976
CFS-T SS-8x3 S/S transit frame (stainless steel material 1.4571 / V4A (AISI 316 Ti))	1	2014977
CFS-T SS-8x4 MSP transit frame (steel, rust preventive coated)	1	2014979
CFS-T SS-8x4 S/S transit frame (stainless steel material 1.4571 / V4A (AISI 316 Ti))	1	2014980
CFS-T SS-8x5 MSP transit frame (steel, rust preventive coated)	1	2014982
CFS-T SS-8x5 S/S transit frame (stainless steel material 1.4571 / V4A (AISI 316 Ti))	1	2014983

CFS-T SSF TRANSIT FRAMES

CFS-T SSF transit frames		
Ordering designation	Package contents	Item no.
CFS-T SSF-2x1 MSP transit frame (steel, rust preventive coated)	1	2050965
CFS-T SSF-2x1 S/S transit frame (stainless steel material 1.4571 / V4A (AISI 316 Ti))	1	2050981
CFS-T SSF-4x1 MSP transit frame (steel, rust preventive coated)	1	2050966
CFS-T SSF-4x1 S/S transit frame (stainless steel material 1.4571 / V4A (AISI 316 Ti))	1	2050982
CFS-T SSF-4x2 MSP transit frame (steel, rust preventive coated)	1	2050967
CFS-T SSF-4x2 S/S transit frame (stainless steel material 1.4571 / V4A (AISI 316 Ti))	1	2050983
CFS-T SSF-4x3 MSP transit frame (steel, rust preventive coated)	1	2050968
CFS-T SSF-4x3 S/S transit frame (stainless steel material 1.4571 / V4A (AISI 316 Ti))	1	2050984
CFS-T SSF-4x4 MSP transit frame (steel, rust preventive coated)	1	2050969
CFS-T SSF-4x4 S/S transit frame (stainless steel material 1.4571 / V4A (AISI 316 Ti))	1	2050985
CFS-T SSF-4x5 MSP transit frame (steel, rust preventive coated)	1	2050970
CFS-T SSF-4x5 S/S transit frame (stainless steel material 1.4571 / V4A (AISI 316 Ti))	1	2050986
CFS-T SSF-6x1 MSP transit frame (steel, rust preventive coated)	1	2050971
CFS-T SSF-6x1 S/S transit frame (stainless steel material 1.4571 / V4A (AISI 316 Ti))	1	2050987
CFS-T SSF-6x2 MSP transit frame (steel, rust preventive coated)	1	2050972
CFS-T SSF-6x2 S/S transit frame (stainless steel material 1.4571 / V4A (AISI 316 Ti))	1	2050988
CFS-T SSF-6x3 MSP transit frame (steel, rust preventive coated)	1	2050973
CFS-T SSF-6x3 S/S transit frame (stainless steel material 1.4571 / V4A (AISI 316 Ti))	1	2050989
CFS-T SSF-6x4 MSP transit frame (steel, rust preventive coated)	1	2050974
CFS-T SSF-6x4 S/S transit frame (stainless steel material 1.4571 / V4A (AISI 316 Ti))	1	2050990
CFS-T SSF-6x5 MSP transit frame (steel, rust preventive coated)	1	2050975
CFS-T SSF-6x5 S/S transit frame (stainless steel material 1.4571 / V4A (AISI 316 Ti))	1	2050991
CFS-T SSF-8x1 MSP transit frame (steel, rust preventive coated)	1	2050976
CFS-T SSF-8x1 S/S transit frame (stainless steel material 1.4571 / V4A (AISI 316 Ti))	1	2050992
CFS-T SSF-8x2 MSP transit frame (steel, rust preventive coated)	1	2050977
CFS-T SSF-8x2 S/S transit frame (stainless steel material 1.4571 / V4A (AISI 316 Ti))	1	2050993
CFS-T SSF-8x3 MSP transit frame (steel, rust preventive coated)	1	2050978
CFS-T SSF-8x3 S/S transit frame (stainless steel material 1.4571 / V4A (AISI 316 Ti))	1	2050994
CFS-T SSF-8x4 MSP transit frame (steel, rust preventive coated)	1	2050979
CFS-T SSF-8x4 S/S transit frame (stainless steel material 1.4571 / V4A (AISI 316 Ti))	1	2050995
CFS-T SSF-8x5 MSP transit frame (steel, rust preventive coated)	1	2050980
CFS-T SSF-8x5 S/S transit frame (stainless steel material 1.4571 / V4A (AISI 316 Ti))	1	2050996

CFS-T SL AND CFS-T SLF SLEEVES

Sleeves in mild steel, primed

Ordering designation	Package contents	Item no.
CFS-T SL 50 MSP sleeve (steel, rust preventive coated)	1	2044651
CFS-T SL 70 MSP sleeve (steel, rust preventive coated)	1	2044652
CFS-T SL 100 MSP sleeve (steel, rust preventive coated)	1	2044653
CFS-T SL 125 MSP sleeve (steel, rust preventive coated)	1	2044654
CFS-T SL 150 MSP sleeve (steel, rust preventive coated)	1	2044655
CFS-T SL 200 MSP sleeve (steel, rust preventive coated)	1	2044656

Sleeves in stainless steel

Ordering designation	Package contents	Item no.
CFS-T SL 50 S/S sleeve (stainless steel material 1.4571 / V4A (AISI 316 Ti))	1	2044663
CFS-T SL 70 S/S sleeve (stainless steel material 1.4571 / V4A (AISI 316 Ti))	1	2044664
CFS-T SL 100 S/S sleeve (stainless steel material 1.4571 / V4A (AISI 316 Ti))	1	2044665
CFS-T SL 125 S/S sleeve (stainless steel material 1.4571 / V4A (AISI 316 Ti))	1	2044666
CFS-T SL 150 S/S sleeve (stainless steel material 1.4571 / V4A (AISI 316 Ti))	1	2044667
CFS-T SL 200 S/S sleeve (stainless steel material 1.4571 / V4A (AISI 316 Ti))	1	2044668

Sleeves with flange in mild steel, primed

Ordering designation	Package contents	Item no.
CFS-T SLF 50 MSP sleeve (steel, rust preventive coated)	1	2044657
CFS-T SLF 70 MSP sleeve (steel, rust preventive coated)	1	2044658
CFS-T SLF 100 MSP sleeve (steel, rust preventive coated)	1	2044659
CFS-T SLF 125 MSP sleeve (steel, rust preventive coated)	1	2044660
CFS-T SLF 150 MSP sleeve (steel, rust preventive coated)	1	2044661
CFS-T SLF 200 MSP sleeve (steel, rust preventive coated)		2044662

Sleeves with flange in stainless steel

Ordering designation	Package contents	Item no.
CFS-T SLF 50 S/S sleeve (stainless steel material 1.4571 / V4A (AISI 316 Ti))	1	2044669
CFS-T SLF 70 S/S sleeve (stainless steel material 1.4571 / V4A (AISI 316 Ti))	1	2044670
CFS-T SLF 100 S/S sleeve (stainless steel material 1.4571 / V4A (AISI 316 Ti))	1	2044671
CFS-T SLF 125 S/S sleeve (stainless steel material 1.4571 / V4A (AISI 316 Ti))	1	2044672
CFS-T SLF 150 S/S sleeve (stainless steel material 1.4571 / V4A (AISI 316 Ti))	1	2044673
CFS-T SLF 200 S/S sleeve (stainless steel material 1.4571 / V4A (AISI 316 Ti))	1	2044674
